

# **E-Safety**

**E safety is where you stay safe online by not giving out personal details such as:**

**Name: do not give anyone you do not know your name so people can't find out who you are.**

**Where you live: you should never tell anyone where you live because they potentially could try and enter your house and harm you.**

**E safety is very important because if we didn't have it everyone could know where you live.**

**advantages of owning a computer:**

**They can automate various tasks we cannot do manually.**

**they can store lots of information. far more than books can.**

**They can calculate almost anything quicker than an ordinary human could. They also work as a dictionary and make writing easier.**

**You can communicate over further distances than by using the post**

**They save your time.**

**Disadvantages of using a computer:**

**They can effect your eyesight.**

**They can cause weight gain and health problems.**

**They have negative effects on your social life.**
